Binding Open Season

Spire Storage West LLC (Spire Storage), a natural gas storage facility owned by Spire Inc., is offering up to 5 Bcf of firm working gas storage capacity beginning April 01, 2022. Minimum contract term for firm storage service bids is 3 years. In addition, Spire Storage will consider bids that incorporate ramping up of storage maximum storage quantity (MSQ) over the contract term (i.e., year 1 – 1 Bcf, year 2 – 2 Bcf, year 3 – 3 Bcf, etc.). Awards are subject to a final negotiated Firm Storage Service agreement between Spire Storage and customer where Spire Storage retains sole discretion to determine the awarded capacity consistent with the terms and conditions of its FERC gas tariff.

Spire Storage is directly interconnected with five interstate pipelines including Kern River, Ruby, Northwest, Questar and Overthrust.

Spire Storage's facilities are located in Uinta County, Wyoming approximately 60 miles southwest of the highly liquid Opal Hub. Spire Storage is uniquely positioned to serve multiple regions and customers – utilities, power generators, marketers and pipelines.

See the attached documents for the Bid Response Form containing specific terms for fuel, variable fees, receipt/delivery points available and injection/withdrawal ratchets. Bids including withdrawal ratchets will be given priority consideration. Bids due by 12:00 p.m. Central Standard Time on Friday, October 29, 2021. For questions concerning this open season or for service request forms, contact your commercial representative or email StorageCommercial@SpireEnergy.com

Spire Storage reserves the right to modify or terminate this open season notice at any time.

About Spire Inc.

Spire Inc. is a public utility holding company that provides gas distribution services to 1.7 million homes and businesses through its regulated utility subsidiaries, natural gas logistics and trading through its marketing subsidiary, and natural gas transmission services through its interstate storage and pipeline subsidiaries.
