Notice Text:

The Operational Alert posted November 21, 2022, regarding the effect of an electrical fire at a Northshore Energy, LLC substation on certain facilities at Spire Storage's Clear Creek plant continues. Spire Storage has installed temporary power at the Clear Creek plant and continues to work diligently to address issues caused by the disruption of power supply. Spire Storage remains unable to project timing of an expected full return to service, but there is no present curtailment of service expected. Spire Storage will continue to operate the station using temporary power until the issue is resolved, and will provide further updates as more information becomes available regarding resolution of issues caused by the electrical fire

Please continue to monitor these postings for further updates. If you have questions, please contact Chad Whited at 713-205-1172 or StorageCommercial@SpireEnergy.com
