

UGI Storage Company – Informational Posting

Date: 9/27/2018

Subject: Fall Shut In Testing – Tioga and Meeker Storage Fields

Dominion Energy Transmission will be conducting its annual fall Tioga storage field shut in test from 10/15/2018 through 10/19/2018. Also, UGI Storage Company will be conducting its annual fall Meeker storage field shut in test from 10/22/2018 through 10/26/2018. During both of these outages, firm injection service for UGI Storage Company customers under rate FSS and rate NNSS will be pro-rated. The specific volumes will be communicated to each customer closer to the test dates. Wheeling service will be available to FSS customers during the tests equal to a customer's MDIQ less the amount of used, pro-rated injection quantity.

Please contact Craig Blume, Director of Customer Relations, at 610-743-7010 or your UGI Storage Company scheduling representative at pipelinescheduling@ugies.com with any questions.
