

2/12/2021

Critical Notice: Yes
Notice Type: Scheduling Alert **Mode:** Alert
Affected Locations: Florida Gas Transmission
Subject: Scheduling Alert – FGT Receipts

Restriction on FGT receipts (Florida Gas Transmission/772290) lifted effective ID2 - GD 2/22.

Restrictions:

TETCO has scheduled maintenance for GDs 2/15 – 2/16, potentially limiting CIP’s ability to schedule receipt nominations in excess of total primary firm obligations. Effective for Timely Cycle GD 2/15, receipt nominations exceeding 538,500 Dth, between combined TETCO locations (CIP & LAS), are at risk. No impact to primary firm is anticipated.

Backhaul deliveries to TETCO are only available via displacement (Receipts ≥ Deliveries). Delivery nominations that would result in a net delivery for combined TETCO locations are at risk until further notice.

- (a) Texas Eastern - 772293 ¹ and
(b) TETCO-CIP - 772299

Updates will be provided via informational postings to Pipeline’s EBB: [CIP Informational Postings](#)

Please contact a scheduling representative if you have any questions.
