

March 19, 2022

Critical Notice: Yes
Notice Type: Force Majeure **Mode:** Critical
Affected Locations: System Wide
Subject: Notice of Force Majeure Event

Cameron Interstate Pipeline ("CIP"), pursuant to Section 8.21 of the General Terms and Conditions of its FERC Gas Tariff, hereby provides notice of Force Majeure event related to equipment failure resulting in an unplanned outage at its Holbrook Compressor Station.

On 03/18/2022 CIP experienced unit failure at the Holbrook Compressor Station. Based on preliminary estimates, the unit will be unavailable for at least one week. While there is not a capacity reduction currently in place, restrictions may become necessary with short or no notice for the duration of the unplanned outage. To obviate the need for capacity reductions, it is imperative that point operators flow ratably throughout the gas day.

Updates will be provided via informational postings to Pipeline's EBB: [CIP Informational Postings](#)

Please contact a scheduling representative if you have any questions.
