

March 31, 2022

Critical Notice: Yes
Notice Type: Pipeline Conditions / Curtailment **Mode:** Critical
Affected Locations: System Wide
Subject: Unplanned Outage – Holbrook C/S (Update # 3)

Cameron Interstate Pipeline (CIP) provided notice of an unplanned outage at its Holbrook Compressor Station due to mechanical failure (notice ID# 227).

CIP continues to experience compression issues related to the outage, and as a result, capacity through the Holbrook Station is reduced to 1,380,730 Dth/d - effective immediately.

Further reductions may become necessary with short or no notice for the duration of the unplanned outage. Based on vendor schedules and best available data, repairs are estimated to be complete on or before 4/3/2022. This estimate is subject to change as new information becomes available.

Updates will be provided via informational postings to Pipeline's EBB: [CIP Informational Postings](#)

Please contact a scheduling representative if you have any questions.
