

March 27, 2022

**Critical Notice:** Yes  
**Notice Type:** Pipeline Conditions **Mode:** Critical  
**Affected Locations:** System Wide  
**Subject:** Unplanned Outage – Holbrook C/S

---

Cameron Interstate Pipeline (CIP) provided notice of an unplanned outage at its Holbrook Compressor Station due to mechanical failure (notice ID# 227), and subsequently posted a notice of reduced capacity, as a result of the outage (notice ID# 229).

A significant portion of the work required to return the facility to full operational strength has been completed. The remaining repairs, based on vendor schedules and best available data, are estimated to be complete on or before 4/3/2022.

Effective immediately, Holbrook Station capacity increases to 1,559,730 Dth/d. However, restrictions may again become necessary with short or no notice for the duration of the unplanned outage.

Updates will be provided via informational postings to Pipeline's EBB: [CIP Informational Postings](#)

Please contact a scheduling representative if you have any questions.
