

Industry Standards and Methodologies

Eastern Shore receives and delivers natural gas that conforms to the gas quality specifications of the upstream pipeline(s) on which the gas was transported. These specifications detail the procedures for obtaining natural gas samples, the analytical test method(s) used, and the calculation method(s) used.

To obtain Gas Quality Methodologies as reported on the Transco website, please follow the steps below:

1. Click on the link below: www.1line.williams.com/Transco/index.html
2. Click "Gas Quality" on the menu to the left
3. Click "Methodology" on the far right of the screen

To obtain Gas Quality Methodologies as reported on the Columbia website, please follow the steps below:
