Assessing RFP Responses

¹ Transco zone 2 GDA means that the price for a pricing date will be that day's specified price per MMBtu of natural gas for delivery on the delivery date, stated in U.S. Dollars, published under the heading "Daily Price Survey (\$/MMBtu) East Texas, Transco, zone 2 Midpoint" in the issue of Gas Daily that reports prices effective on the pricing date.

All responses must be submitted to GPPL no later than **5:00 PM CST, Thursday, April 22, 2021**. GPPL will evaluate bids and offers based on the lowest cost options that meet GPPL's operational needs. Prior to execution, GPPL will allow parties to refresh the bids or offers. Counterparties are not required, but may submit both bids and offers. GPPL reserves the right to reject and remove from consideration any offers or bids in GPPL's sole discretion. GPPL may consider awarding the aggregate of two or more offers or bids that result in the highest value and operational benefit. GPPL may also consider the net aggregate of offers or bids for multiple packages of gas. As a result, the purchase or sale volume allocated under any individual offer or bid may be reduced. Buyers or sellers who are not willing to accept a reduced allocation should so state in their bid or offer.

RFP Awards and Contracting Process

GPPL will evaluate the bids and offers submitted in this RFP and will determine which offers and bids meet GPPL's operational needs at the lowest costs. If there is a tie, the bid or offer submitted first in time will prevail. GPPL will notify participants of the outcome of their proposals no later than **12:00 PM CST Friday, April 23, 2021**. GPPL reserves the right, in its sole discretion, to reject any bid or offer that does not meet GPPL's economic and operational needs. GPPL will negotiate to enter into binding agreements with those buyers and sellers that submit offers and bids which, in GPPL's sole discretion, provide the lowest cost options and that meet GPPL's operational needs.

Parties submitting offers must qualify for service in accordance with all applicable provisions of GPPL's FERC Gas Tariff, including the creditworthiness provisions. In addition, responding parties must be able to execute a NAESB Base Contract for Sale and Purchase of Natural Gas with GPPL.
