VECTOR POSTING

***** IMPORTANT OUTAGE UPDATE *****

VECTOR – ALLIANCE AND NORTHERN BORDER INTERCONNECTS OUTAGES SEPTEMBER 19 – NOVEMBER 16, 2023

October 19, 2023

To Vector Shippers:

Major facility upgrades are planned at the Alliance and Northern Border Interconnections in Will County, Illinois. The meters and flow control valves at these interconnections are being replaced with equipment better suited for the smaller volume of gas that now flows at these sites. This work will impact all transportation services at the interconnections for several weeks. **Due to construction delays, the outage will tentatively extend through November 16, 2023 and no commercial services will be scheduled during this time.** The Locations impacted include the meters, PAL and TTS points (AL101, ALL-PAL, ALL-TTS, NB101, NB-PAL and NB-TTS).

Please refer to a separate posting regarding Vector's interconnection with Guardian Pipeline.

These outages will impact Vector's firm service contracts and Demand Charge Credit mechanisms under Vector's FERC (GT&C Section 41) Gas Tariff will apply.

Any inquiries or concerns should be directed to the following Marketing contacts:

Matt Malinowski – Director, Market Development
(734) 276-6189

Dennis Scheibe – Manager, Transportation Services
(734) 210-8481
